

BEWARE OF AI CHATBOTS!

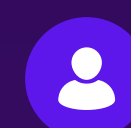

What do we mean
by AI chatbots?

Chatbots are computer programs that understand and answer user questions in the form of a conversation!

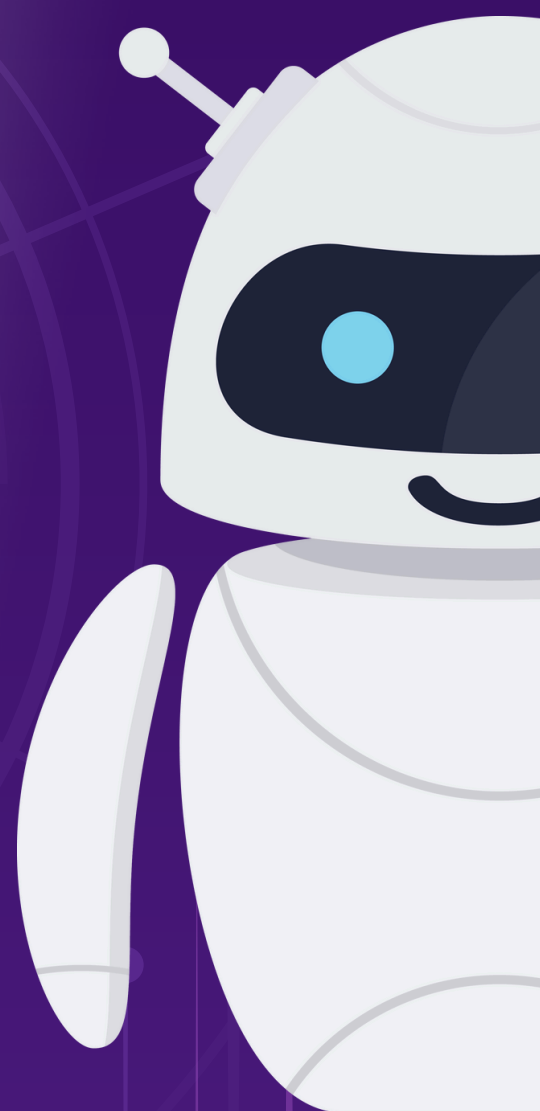

What are 5 safety tips for using an
AI chatbot at work?

- Before using an AI chatbot, make sure it is approved by your organization.
- Avoid sharing personal, organizational or sensitive information when using AI chatbots to protect your privacy.
- Verify the veracity of the information by consulting other reliable sources, do not rely solely on the information provided by the chatbot.
- Be aware of possible phishing attempts by chatbots, which may try to trick you to obtain confidential information.
- Stay updated on new online security threats when using AI chatbots.

EXTRA TIP

Trust your instincts and if you notice anything suspicious, don't hesitate to seek advice or report it to the proper authorities.
