# 3 tips to Scan safely

USE THE BUILT-IN SCANNER ON YOUR DEVICE

If your device does not have a built-in scanner, just download a trusted third-party scanning app from your device's official app store.

SCANNING

CHECK FOR PHYSICAL TAMPERING BEFORE SCANNING

Cybercriminals can generate malicious QR codes and print them as stickers to cover up legitimate ones.

CHECK THE LINK BEFORE CLICKING

Look for misspellings, misplaced characters, and abbreviated web addresses, which are signs of a malicious website.

www.vancomx.com

Never enter sensitive information on a website you were directed to by a QR code unless you're sure the site is legitimate.

Stay alert and think before you scan.
