

# IS IT REAL OR FAKE?

Learn to detect fake audios and videos

## How do I identify a fake video?

- Facial movements out of sync with the voice.
- Unusual blinking or stare.
- Inconsistent lighting on skin and hair.
- Visual artifacts (distortions or strange spots).

## How do I identify a fake audio?

- Unnatural rhythm and tone.
- Lack of emotion or strange pauses.
- Pronunciation with subtle errors.
- Interference or metallic sounds.

## How do I protect myself?

**Be wary of urgent requests.**

**Use a secret code word with your team.**

**Ask unexpected questions to confirm identity.**

**Do not share sensitive information without confirmation.**
